Forwarded free on the receipt of thirty postage stamps (prepaid), by permission, to GEORGE GODWIN, Esq., F.R.S.

ARCHITECTURAL BOTANY; setting forth the Geometrical Distribution of Foliage, Flowers, Fruit, &c. with twenty original designs for decorating Cornices, Spandrils, Cresta, Corbels, Capitals, Bosses, Panels, &c. Among other plants selected, are the Adam Mesembrianthus, Nasturtium Aquatica, Jerusalem Pyramidalis, Nopals Obcoma, Tropæolum, Aquilegia Vulgaris, Ranunculus Ficaria, &c.

By W. F. GRIFFITH, F.R.A., F.R.L.S.A.
9, St. John's-square, London.

The very interesting study of Architectural Botany has occupied the attention of Mr. Griffith for many years. In a letter to the "Architectural Publication Society," Oct. 28, 1848, he suggested the subject, which was printed in "The Builder," Dec. 9, in the same year. The object Mr. Griffith has in view, is that of rudimentary to the public the laws, dictated by nature, suitable for art purposes.

Part II. will shortly be published.

Price 1s. cloth, with Plates.

THE BRITISH WINTER GARDEN: a practical Treatise on Evergreens; showing their general utility in the formation of Garden and Landscape Scenery, and their mode of Transplanting, Pruning, and Removal, from one to fifty feet in height, as practised at Elvaston Castle.

By WILLIAM BARRON, Head Gardener.
BRADBURY and EVANS, 11, Bouverie-street.

Price 1s. 6d., boards; 2s. cloth.

HOW TO LAY OUT A SMALL GARDEN. Intended as a Guide to Amateurs in Choosing, Forming, or Improving a Place.

By EDWARD KEMP, Landscape Gardener, Birkenhead Park.

THE HAND-BOOK OF GARDENING. For the use of all persons who possess a Garden of limited extent. Price 2s.

BRADBURY and EVANS, 11, Bouverie-street.

This day is published, in foolscap 8vo, price 5s.

PRACTICAL HINTS ON ORNAMENTAL PLANTS AND PLANTING—with a description of all Evergreens adapted for the climate of Great Britain; Soil and Situation suitable for each, and proper Time for Planting;—with a Treatise on the Cultivation of American Plants the new Sikhim Rhododendrons, &c.

By STANDISH and NOBLE.
Printed for the Authors by BRADBURY and EVANS, 11, Bouverie-street.

THE QUARTERLY REVIEW, No. CLXXXII. is published THIS DAY.

CONTENTS:

I. British Birds and Stonehenge.
II. Ionian Islands.
III. Irish Salmon.
IV. Dr. Chalmers.
V. Winds.
VI. Lord Langdale.
VII. Gold Discoveries.
VIII. Parliamentary Prospects.

JOHN MURRAY, Albemarle-street.

THE ARCHITECTURE OF THE CITY.

LAWSON'S MERCHANTS' MAGAZINE, for OCTOBER, price 1s. contains, among many other articles AN ARCHITECTURAL GLANCE of the CITY, which will be continued in future numbers.

ROBERT HASTINGS, Camp-street; and RICHARDSON, Cornhill.

Second Edition, price 3s. 6d. bound in cloth.

THE STUDENT in ARCHITECTURE. By J. B. ROBERTS.

"It contains many useful suggestions, and is written with good feeling, and we commend the book as well calculated to awaken the attention of the young student to the work that is before him."—*The Builder*, March 8.

"From Mr. J. B. Roberts we have received some 'Short Hints to the Student in Architecture,' which appear to be thoroughly practical; he has added some useful annotations on the art of measuration."—*The Critic*, May 1.

WHITTAKER and CO., London.

DR. LARDNER'S HANDBOOK OF NATURAL PHILOSOPHY AND ASTRONOMY.

This day, large 12mo., price 6s. cloth.

A HANDBOOK of NATURAL PHILOSOPHY and ASTRONOMY.

By DIONYSIUS LARDNER, formerly Professor of Natural Philosophy and Astronomy in University College, London.

Second Course: containing Heat, Common Electricity, Magnetism, and Voltaic Electricity. With 200 woodcuts.

*** The Third Course (completing the work) will contain Astronomy and Meteorology.

London: TAYLOR, WALTON, and MABERLY, 28, Upper Gower-street, and 27, Ivy-lane.

Just published, in a convenient size for the pocket, neatly printed in a good clear type, price 5s.

THE BUILDER'S POCKET-BOOK of REFERENCE; containing numerous Tables, calculated from Experiments on the Strength of Timbers, Wood and Iron Beams, Iron Columns, &c.; the Strength and Weight of Straps and Bolts; the adhesive power of nails of different sizes; with plain observations upon Roofing, Flooring, Shoring, &c.; and a variety of other information useful to all persons connected with Building. To which is added a Concise Method of Calculating the Value of Leasehold and Freehold Property.

By JEREMY MALPAS, Surveyor.
London: HOUSE and CO., 67, Bow-lane, Cheapside.

TO DRAUGHTSMEN AND CIVIL ENGINEERS.

H. MORRELL, BLACK LEAD PENCIL MANUFACTURER, No. 148, Fleet-street, London.

These Pencils are prepared, in various degrees of hardness and shades.

HHHH for drawing on wood.	F F light and shading.
HHH for architectural use.	F for general use.
H H for engineering.	B black for shading
H for sketching.	BB ditto ditto.
H B hard and black for drawing.	BBB ditto ditto
	BBBB ditto ditto

M medium.

Sold by all the principal Stationers in town or country.

WINDOW BLINDS.—TYLOR and PACE, Window Blind Manufacturers, 313, Oxford-street, adjoining Hanover-square, and 3, Queen-street, Cheapside, London, submit the following PRICES of WINDOW BLINDS, which they can recommend as being made in the best manner:—Venetian Blinds, per square foot, 2d.; bee holland blinds, on rollers, 6d.; bees ditto, on spring rods, 8d.; gauze wire blinds, in mahogany frames, 1s. 10d.; perforated zinc blinds, in ditto, 1s. 8d.; outside blinds of zinc, 2s. 6d.; ditto of iron, 1s. 9d. Orders per post receive the most prompt attention.—WILLIAM PIGGOTT, 124, Fore-street, City. Manufacturer, by appointment, to her Majesty's Honourable Board of Ordnance.

LEONARD SUGDEN, Manufacturer of Doors, Sashes, and Frames to the Trade, 39, Grange-road, Bermondsey, begs to inform builders and others that he has always on Sale a large Assortment of DOORS, SASHES, and FRAMES of the best quality, at greatly reduced prices. W. S. manufactures four panel 11th square doors, 21s. 6d. per dozen; 10 in. sashes and frames complete, with beads and mouldings, ready to be hung, fitted in and primed, 9 guineas per dozen.—N.B. A full list of prices may be had on application.

DURRAND'S "BONDED and SUFFERANCE WHARF," TIMBER PRESERVING WORKS, ROTHERHITHE.—BETHELL'S process consists in preparing timber with creosote, or oil of tar, and is particularly applicable for Railway Sleepers, Bridge Timber, Telegraph Posts, Piers, Docks, Harbours, &c.; and the Patented Planking of Ships and Barges, and also for use in the colonies, as being perfectly impervious to the attacks of all land or marine insects. PAYNE'S, KYAN'S, BURNETT'S, and MARGARY'S processes, in addition to their preservative properties, are likewise non-combustible, and are, consequently, adopting in her Majesty's Dock Yards, as a preventive of fire in Ship Building; and are also extensively used in House, Farm, and general Building.

Extensive and most complete Machinery for the application of the above processes has been erected on these premises, which, being close to the great Timber Depot of the Docks, are extensively situate for land conveyance, or for transport; and from peculiar sufferance Privileges are, consequently, equally applicable for Colonial and Foreign Trade.

Scale of charges and every particular of P. ST. QUINTIN, Superintendent, on the Wharf; or at Mr. BURTT'S Office, 8, Charlotte-row, Mansion-house, City.

DAMP WALLS.—NEW PATENT PAINT, as used at the TOWER, by order of HER MAJESTY'S HONOURABLE BOARD of ORDNANCE; at the TUNNEL; SOUTH-GATE, HASTINGS, Regent's-park, and various other public and private buildings; in quantities to finish twenty square yards for 15s.

PATENT LIQUID CEMENT for the fronts of houses, for beauty pre-eminent, giving the appearance of fine cut stone, and only one-eighth the cost of Oil Paint. In coats of 1, 2, and 3 yards, at 12s. and 15s. each.

PATENT MINERAL ZINC PAINTS, invaluable for cheapness, beauty, and permanence, ready for use. White Stone and Lead, 3s.; Greens and Blues, 4s. per gallon.

BLACK MINERAL PAINT, very permanent, half the usual price; only 3s. per gallon.

NEW PATENT COLOUR for inside work, may be applied on Wood, Stucco, Cement, or over Oil Paint. No smell, and will dry in an hour. In coats of 1 cwt. at 14s.

G. BELL and CO. Steam Mills, 8, Whiting-street, Cornwall-street, London.

OAK STAINING and VARNISHING.—Staining and Varnishing of Churches, Chapels, &c. done for the trade at 2d. per yard by JOS. WILLIS, High-street, Kingsland.—Oak Stain, 4s. per gallon.

STAINING DEAL TO IMITATE ALL KINDS of WOODS. It requires no rubbing, and will stand the exposure to the weather. Price 4s. per gallon. Varnishes for W. NAYLOR'S Stains may be had at the Factory, 37, James-street, Oxford-street.

HUBBUCK'S PATENT WHITE ZINC PAINT.—The PERMANENT WHITE of the Academy, by its constituent Lithopone restricted to the use of the artist, is now adapted to the price of the ordinary white lead.

Four years since the proprietors placed their manufacture on a large scale, and put this chemical Paint in competition with White Lead.

Its confessed superiority over every other paint hitherto known brought forward various imitations.

These inferior productions, frequently made from zinc ores, containing lead, arsenic, and other deleterious material, alike injurious to health, deterrent in body, and reducing the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence that it is of the same.

Hubbuck's paint is entirely free from any injurious properties whatever; it is healthful in the manufactory, healthful in use, and healthful to occupants of rooms newly painted with it.

As a guard to the painter against the substitutions of the inferior paints, each can is stamped

"HUBBUCK, LONDON, PATENT"

and if the can has not been so inserted, the reason is obvious.

The powdered White Zinc also may be had for grinding in oil; also for fine paper hangings, cards, for japanning, for prints, pencils, and for plaster decorations, and the other purposes where it is used with zinc ores, vermeil, vesuvi &c.

A circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

PURE PATENT WHITE ZINC PAINT, of the VIEILLE MONTAGNE ZINC MINING COMPANY of BELGIUM.—This Paint is superior in every respect to White Lead, both for purposes in whiteness and brilliancy. It covers very much more in a given quantity, and is, therefore, compatible of a very high polish. It is unaffected by sea-water, sulphuretted hydrogen, or any other gases.

WHITE ZINC PAINT having some of the mechanical qualities of White Lead, avoids the dangerous excitement to which workmen, as well as persons inhabiting newly-painted houses, are subject.

The VIEILLE MONTAGNE COMPANY import the Oxide in casks bearing their mark, VM, without which none are genuine, and is to be obtained dry or ground at the Company's Agents at the following places, viz.—London, Liverpool, Birmingham, Hull, Newcastle, Leeds, Glasgow, Perth, Plymouth, Norwich, Ipswich, Dublin, Cork, Belfast, Jersey, Portsmouth, Poole, and the Isle of Wight; and from Messrs. Blundell, Spence, and Co. Hull. It may also be obtained from the Grinding Agents, Messrs. C. DEVAUX and Co. 23, King William-street, City. Wholesale Agents, Mr. Charles Jack, 5, Tottenham-court, New-road, and 29, Upper Thames-street, who sells at in kegs of 14 lbs. 28 lbs. and upwards at low rates; and Messrs. E. Anderson and Co. Trinity-bush, Leith, wholesale and retail.

The Company also employ a painter, who will undertake any description of painting in Zinc by contract.

From its introduction into the United Kingdom, the Admiralty and the most eminent professional men have given it their preference. The public is cautioned, that if White Zinc Paint is not attended, it becomes a very inferior paint, and peels and washes off.

For further particulars apply to Mr. H. T. SCHOLL, General Agent for the United Kingdom, at the Company's Offices, 19, Manchester-buildings, Westminster.

THE VIEILLE MONTAGNE ZINC MINING COMPANY beg to inform the public that they have appointed Messrs. T. and S. KNIGHT, of Great Suffolk-street, Southwark, as their painters, who will be ready to execute any description of painting and decorating with the Pure Patent White Zinc Paint.

THE WASHINGTON CHEMICAL COMPANY, NEWCASTLE-ON-TYNE;

Manufacturers of

PATTINSON'S OXICHLORIDE of LEAD.—The Washington Chemical Company having, during the last year, established a Manufactory of Pattinson's Oxichloride of Lead on a large scale, and being able to supply it with regularity, and to execute orders without delay, now proceed to bring this new and valuable preparation of Lead before their friends and the public, quite sure that it will not, in the present age, be condemned because it is new, and that if judged by its merits it must make its way, and justly take its place as one of the important manufactures of this country.

Pattinson's Oxichloride of Lead is a chemical combination of one equivalent of Chloride of Lead, and one equivalent of Oxide of Lead; it being well known that common White Lead is a chemical combination of one equivalent of Oxide of Lead, and one equivalent of Carbonic Acid, technically known as what is called in chemical language, Carbonate of Lead. Now there is no reason to conclude that Carbonate of Lead is the only component of lead valuable as a paint, and still less that it should be the best component of lead for that purpose. In point of fact it is not so, for the newly-discovered Oxichloride in most, if not in all respects, is its superior; its colour is brilliantly white, and in a number of cases it has been tried against the best White Lead that could be obtained, and after a period of upwards of two years it has been found to retain its white colour, considerably better than the lead against which it was tried.

But the chief ground for the most important advantage it possesses in its remarkable and very decided superiority of body; by which term the power of covering surface well and extensively, is understood among Painters. The attention of the discoverer was at a very early period drawn to this circumstance, and since that time the Washington Chemical Company have had abundant opportunities of placing its superiority in this important particular beyond all doubt. They have themselves performed a number of experiments, and have also caused a number of experiments to be performed in the same way, by various practical men, to ascertain accurately its covering power as compared with the best White Lead, and they have found the proportions to be as 60 to 100, that is, 60 lbs. of Oxichloride Paint will cover as much surface as 100 lbs. of the best White Lead, the saving of cost being in the same proportion; besides this, the coating is thicker and more protective, both in and out of doors, as the Oxichloride dries into a hard, tenacious layer, more like an Enamel than paint.

In using the Oxichloride, no difference in the materials with which it is mixed is required; Oil and Turpentine being employed as usual, both for work technically called Flatting, and for work intended to be varnished. For the use of Paper Stainers and Leather Dressers, the Oxichloride is found to be peculiarly suitable. The Washington Chemical Company strongly recommend this newly-discovered substance to the notice of consumers, both on account of its economy, and its intrinsic good qualities as a paint.

AGENTS.

LONDON	Messrs. Blundell, Spence, and Co. 8, Upper Thames-st. Mr. Richd. Cooke, 7, Shoe-lane.
LIVERPOOL	Messrs. Johnson and Molyneux.
MANCHESTER	Mr. James Dugdale.
